BLAIRMORE TO BE ENFETE ON JULY 1ST

largely attended meeting of the Alberta Amateur Athletic Association, held at the Comox Hotel on Tuesday night, it was definitely decided to stage a field day and sports programme on the local athletic grounds on July 1st, and a committee was chosen to draft a programme of events that will surpass any previous event of the kind.

The meeting was presided over by the president, R. W. H. Pinkney, while S. G. Bannan, vice-president; A. J. Kelly, secretary, and practically all executive members were in attendance.

The minutes of last meeting were read and approved. Communication included one from the secretary of the Alberta provincial association, sanctioning the appointment of Mr. S. G. Bannan as amateur governor to succeed Mr. W. H. Chappell, who fell obliged to retire temporarily.

A vote of thanks was tendered those who have been actively interested in arranging the athletic grounds, particularly Messrs. J. Milne, J. Rosse and S. McDowell.

Messrs. R. W. H. Pinkney and J. V. McDougall were re-elected finance committee, while Messrs. W. H. Chappell, S. G. Bannan and Robert Gray were again chosen to draft the programme of events, etc. It was suggested that this latter committee endeavor to have programme conform as closely as possible to the requirements of provincial championships.

CHOIR CONDUCTS SERVICE AT UNITED CHURCH

Owing to the absence of the pastor, Rev. J. W. Spith, B.S., who was attending conference in Calgary, the choir, under the leadership of S. M. Neville, took charge of the service last Sunday evening. They utilized the entire period by rendering three anthems interspersed with solo duets, etc. The church was filled to capacity for the occasion, and the large congregation enjoyed the innovation.

The service was opened by a call to worship from Miss Freda Smith, afterwards the following programme was carried out:

Hymn, anthem, by the choir; scripture, by Miss Alice Hamilton; solo, by Mrs. Kerr; prayer by Mr. T. McKay; hymn, scripture by Mrs. Bannan; anthem by the choir; scripture by Miss Irene Chappell, duet by Mrs. Bannan and Mr. Hibert (Coleman), hymn, offering and dedication by Miss Ruby Howe, quartet by Mesdames Bannan and Oliver, Messrs. Womersley and Neville, announcements by Mr. S. McDowell, anthem by the choir, hymn. The service was then brought to a close with the benediction by Miss Alice Hamilton.

BLAIRMORE PUBLIC LIBRARY

New books placed on the shelves this week are:

Fiction—"Every Man for Himself," by Moorhouse; "Sunny-San," by Onoto Watanna; "The Dark Dawn," by Martha Ostenso; "Booby," by Wells; "The House of a Thousand Candles," by Nicholson; "Carillon of Scarpa," by Flora Klickman.

Non-Fiction—"Thoughts on Life and Philosophy," by Marcus Aurelius; "Naturalist's Voyage in H. M. S. Beagle," by Darwin; "Pillars of Society," by A. G. Gardiner.

Library hours are, Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. Membership is \$1.00 per year.

Examinations under the Mines Act opened in the Masonic hall on Wednesday and will conclude tomorrow, with the following as examining board: Messrs. L. P. Robert, Enoch Williams and Moses Johnson. There are four candidates sitting for first-class certificates, eleven for second class and one for mine surveyors.

DEATH OF MISS LILLIAN WEJR

Word was received here on Thursday last of the rather sudden death of Lillian, daughter of Mr. Frank Wejr, and the late Mrs. Wejr, of Frank, which occurred at Moose Jaw, Saskatchewan, that morning, at the early age of nineteen years.

The remains were brought to Blaimore, where interment took place on Saturday afternoon.

Deceased is survived by her father, three brothers and three sisters, namely Frank, Joseph and Louis, Tacoma, Washington; Mrs. T. N. Slopack (Ammie), and Mrs. Frank Novotny (Julia), Tacoma, Washington; and Mrs. George Willey (Caroline), of North Battleford, Saskatchewan, most of whom were present for the last rites.

The funeral was very largely attended, services being held at the Crooks' Nest Undertaking parlor and the grave site. The remains were laid to rest in the Blaimore Union cemetery.

Mr. Wejr and family desire through The Enterprise to thank all for the many floral and other expressions of sympathy; also those who so kindly furnished cars for the funeral.

DAREDEVILS MAKE "HELL'S ANGELS"

An event of more than usual significance is slated for Pass movie goes at the Cole's theatre, Bellevue, next week. "Hell's Angels," the most outstanding film achievement of all time, is the attraction.

"Hell's Angels" is the stupendous drama of air-war which Howard Hughes produced and personally directed at the staggering cost of \$4,000,000, and which required three years of continuous filming to complete.

It is admittedly the ace spectacle of wartime aviation—a graphic glorification of the World War in the air. According to most critics, it is the supreme revelation of realism—the first authentic reproduction of the exploits of both Allied and German pilots during the World War.

More than 100 daring pilots, including many of America's foremost stunt flyers, took part in the thrilling air battles which are a spectacular feature of "Hell's Angels."

A flying fleet of exactly 87 real wartime planes, including a giant German Gotha bomber and a German dirigible, was brought together from all parts of the world and flown in this picture.

In one scene alone 50 planes are shown in combat simultaneously. It cost a quarter of a million dollars to put this single scene on the screen and aviation authorities, military and civil, declare it is the most miraculous achievement in the history of both aeronautics and motion pictures.

For the first time the exploits of the now world-famous Baron von Richthofen's Flying Circus are accurately reproduced, and for the first time the sensational wartime Zeppelin raid on London is depicted realistically.

Upwards of 20,000 persons took part in the making of "Hell's Angels," and more than 3,000,000 feet of film were ground through the cameras to obtain the astounding realism disclosed in the completed picture.

Aside from its unprecedented and spectacular features in the air, "Hell's Angels" is replete with romance and drama. It is based on one of the most original and dramatic stories ever screened—a story amazing and daring in its originality and treatment.

In "Hell's Angels," you will see many new faces. In striving for complete realism, Mr. Hughes endeavored to get away from well-known actors as much as possible, and use instead new players who were in themselves the characters required, so they could live rather than act their parts.

Canada's Railway Milestones

Fifty years ago, on May 2, 1881, to be exact, the first sod for the construction of the Canadian Pacific Railway was turned, thus commencing one of the great engineering undertakings in the world's history and marking the beginning of the world's greatest transportation system. Enthusiasm for and confidence in this great work was mingled with grave doubts and misgivings, and especially in financial circles in the old world were grey heads shaken in doubt over the wisdom of a young country of small population and no accumulated wealth embarking on such a gigantic enterprise.

The contract for the building of the C.P.R. called for the completion of the project in ten years. It is a matter of history that the last spike of the original main line was driven on November 7, 1885. In other words, construction was completed in four and a half years, and on June 28, 1886, the first C.P.R. train to the Pacific coast left Montreal, arriving at Port Moody, B.C., five and one-half days later.

The building of the C.P.R. was in fact the building of Canada. Without it Confederation could not have been achieved nor continued. It is the steel link which bound all of British North America together. The successful carrying through of this huge undertaking not only gave the people of Canada courage, but it established confidence in the new Dominion throughout the world. It was a visible object lesson, an ever present encouragement to the Canadian people in dark days and in undertaking other great enterprises.

With the completion of the C.P.R. possibly many people of that day thought that Canada's transportation problems were solved. Yet within fifteen years of the driving of that last C.P.R. main line spike, Messrs. Mackenzie and Mann were engaged in building a second transcontinental railway across Canada, and within the brief space of another ten years a third transcontinental was under construction from the Atlantic to the Pacific.

Looking back over the years, and in the light of experience, Canada probably overdid the building of transcontinental main lines, but at the time these works appeared to be necessary and essential to the national well-being and development. Possibly, too, had the Great War not plunged the world into confusion and years of wholesale destruction, the story of Canada's railways would be different. However, to speculate on this is idle. The fact remains that, with that same courage which promoted and successfully carried through the C.P.R., the people of Canada faced and grappled with the problem which confronted them when war broke and the Canadian Northern, Grand Trunk Pacific, National Transcontinental and the old Grand Trunk were plunged into financial difficulties.

Turning back another page in history, we find that it was only eleven years ago, May 26, 1920, that responsibility for the operation of the Great Trunk passed to the Government of Canada. Thus several main line systems and a conglomeration of badly co-ordinated branch lines, with a top-heavy financial structure, were left on the hands of the Government. Within a decade these have been amalgamated into a mighty and highly efficient transportation machine, with the largest mileage of any railway under one management in the world. An operating deficit of \$22,000,000 in 1920 was transformed into an operating surplus of \$20,884,000 in 1930, and this wonderful achievement is but symptomatic of improvements and advances made in every department of service, until today the Canadian National Railways are a source of pride to every Canadian.

In a previous article it was stated that the people of Canada are an impatient people; that they demand results almost overnight; that they insist on having all those services and conveniences which the people of other lands have devoted centuries to creating and developing. And it is true, but possibly what Canadians have accomplished in the life of one or two generations is responsible for this national trait; perhaps their accomplishments are the result of this impatience. Nevertheless, it is a national characteristic has its dangers. With all the advantages of our great transportation systems, we are of necessity paying heavily for past mistakes, mistakes attributable to our impatience.

And the real danger lies in the fact that we do not appear to have learned the lesson, costly as it has been. We are still vehemently demanding other things which, in our best interests, it would be wise to defer for a time until we get our feet a bit more solidly on the ground, and secure for ourselves a stronger position where we can the better stand the strain which these additional and admittedly desirable things will impose upon us as a people.

Two Of A Kind

She was telling her husband the troubles of the day.
 "You know, Bert," she said, "Mrs. West has a very nasty habit."
 "What's that, dear?" he asked patiently.
 "She turns round and looks back every time we pass her in the street," his wife replied.
 "Really! And how do you know, dear?" he responded softly.

New Style Typewriter

Colin-in-the-alot typewriters are the latest machines for use of the public in Germany. One thousand letters or spaces are available upon insertion of a small coin. Should the matter to be typed exceed this length, it is only necessary to insert another coin.

Price 50c a box

Manitoba Copper Mines

"One of Manitoba's copper mines has a daily capacity of 9,000 tons," says the Western Canada News Bulletin. "In a single year it can produce 60,000,000 pounds of zinc, 30,000,000 pounds of copper and gold to the value of \$10,000,000. Another not yet producing, has proved ore to the value of more than \$100,000,000."

Taken Off Free List

No more free matches are to be supplied in smoking-rooms and the refreshment counters of the British House of Commons. About 12,000 boxes of free matches are passed out at each session of the House.

Alaska's forests cover an area the size of Missouri, Maine and New Jersey combined.

Palpitation Of The Heart Nerves Were All Gone

Miss Rose Griffin, Ashcroft, B.C., writes: "About five years ago I was troubled with palpitation of the heart, caused by a shock, and my nerves were all gone, and I could not sleep. I read about Milburn's Heart and Nerve Pills and decided to try them. After having taken three boxes I was feeling fine again. I think they are a wonderful remedy. I would give them to others who suffered as I did would give them a trial."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Calgary Exhibition

Poultry Association Endorsing To Have An Interesting Exhibit.
 Entry forms to prospective exhibitors in the poultry classes at the Calgary Exhibition and Stampede, to be held July 8 to 11, are being sent out by the exhibition board. Entries close on June 20. A covering letter from Dr. D. S. Macnab, president of the Calgary Poultry Association, urged that some entries be made by all breeders, even though only one or two birds. "Shows and exhibitions are necessary if we are to continue to breed birds true to type," he says. "The value of the opportunity of placing your birds alongside those of other breeders of the variety and comparing them far outweighs the value of any money prizes you may be awarded—welcome as those undoubtedly are."

Recipes For This Week

(By Betty Barclay)

SPECIAL BREAD PUDDING

- 2 cups milk, scalded.
- 2 tablespoons butter.
- 1 cup stale bread, cut into 1/4 inch cubes.
- 1/2 cup sugar.
- 1/2 teaspoon salt.
- 1/2 teaspoon vanilla.
- 1/2 teaspoon almond extract.
- 2 eggs, slightly beaten.
- 1 cup coconut, toasted.

Combine milk with butter and bread cubes. Add salt, sugar and flavoring to eggs and beat lightly. Pour milk mixture over egg mixture and pour in coconut. Pour into greased baking dish, place in pan of hot water, and bake in moderate oven (350 degrees Fahrenheit) to 45 to 50 minutes. Serves 6.

BUTTERSCOTCH COOKIES

- 3 1/2 cups special cake flour, sifted.
- 1/2 cup brown sugar.
- 1/2 cup butter or other shortening.
- 2 cups sifted brown sugar.
- 2 eggs, well beaten.
- 1/2 cup vanilla.

Sift flour once, measure, add soda and cream of tartar, and sift again. Cream butter, add sugar gradually, and cream together thoroughly. Add eggs and beat well. Add vanilla and flour, mixing well. Shape into round or square loaf, wrap in waxed paper, and chill over night. Remove paper; cut in thin slices. Bake in hot oven (425 degrees Fahrenheit) 8 minutes. Cookies may be sprinkled with chopped nuts before baking. Makes 8 dozen cookies.

Watch Screws For Machines

Smallest Made and 482,000 Required To Weigh A Pound.
 Watch screws are the smallest made for use in machines. Some of these tiny screws are only one thirty-four-thousandth of an inch in length, the diameter of the head being one twelve-thousandth of an inch. Such a screw has 360 threads to the inch, and 482,000 of them are required to make a pound.

Service For Theatre Patrons

Delivery of theatre tickets by motorcycle messengers to any address within 12 miles of the West End, has been started by the Whitehall Theatre in London, England. All playgoers have to do is to telephone the theatre and order the seats. Payment is made on delivery of the tickets, no delivery charge being added.

Perfume Balm quickly relieves chapping, windburn, and all roughness caused by weather conditions. Keeps the complexion clear and lovely. Completely absorbed by gentle rubbing. Never leaves undesirable stickiness. Stimulates the skin. Makes it soft, smooth and flawless. Preserves and enhances natural beauty. Soothes, refreshes and invigorates. Makes hands soft and beautifully white. Imparts that subtle charm so essential to true elegance.

Studying Bird Life In North

J. B. Semple, ornithologist of the Carnegie Museum, at Pittsburgh, Pa., has left with two assistants on an expedition which will take them to Bay and Hudson Bay where they will study sub-arctic bird life. They will be gone three or four months.

The Russian workman, forced to quit a job because he was unable to do the work, has been told in the fact that he is no longer slave of a czar.

W. N. U. 1932

PLEASED PRINCE

Senorita Fatma Carell so pleased the Prince of Wales during a special performance in honor of the royal brothers in Bolivia, that the Prince asked to be introduced. Senorita Carell has recently arrived in Europe for London and Paris appearances.—Copyright by Acme Newspictures.

Crime In United States

Statistics Show Homicides Doubled In Past 30 Years

Statistics have completed their annual study of homicide in the United States, and have produced figures that should appall proportionately with the effect of the completion of a year ago. These researchers have collected data from thirty-one cities with a collective population of twenty-five million people.

In a generation — thirty years — the average homicide rate for these thirty-one cities has doubled. And in one year the rate has gone up from 8.5 to the hundredths population in 1929, to 10.9 in 1930.

There were seventeen times as many homicides to the 100,000 as in England and Wales.

Then the statisticians add one significant statement: The number of convictions in murder cases in the United States is decreasing steadily. The number of murders is rapidly increasing throughout the country. — Minneapolis Journal.

Ray Insurance Rates

Hon. R. J. Manion Says Marine Rates Will Be Reduced In Due Time

Marine insurance rates on the Hudson Bay route will be reduced 25 per cent, says Hon. R. J. Manion, Minister of Railways and Canals, told the House of Commons. It was impossible, he said, to estimate what the cost of shipping grain through Hudson Bay would be compared with the cost by other routes.

Many factors entered into the cost, and insurance rates were one of the most important. Rates on a new experimental route were always high, he said, answering a question from Hon. W. D. Butler (Lib., Waterloo North). But, if there were few accidents, the rates would soon come down.

People had so often been fooled about different parts of Northern Canada, the minister said, that there was no reason to believe the route would not be a success.

Astronomers May Soon Explore All Universe

Consider It Enormous But Not Infinitely Big

Possibility that astronomers may some day be able to explore with their telescopes to the limits of the universe, was pictured at Washington by Sir James Hopwood Jeans, British astronomer.

"The modern astronomer regards the universe as a finite closed space," he said, "as finite as the surface of the earth, and if he is not yet acquainted with the whole universe, he has good reason to hope that he will be before very long."

"We of today no longer think of vast, unknown and unsounded depths of space, stretching interminably away from us in all directions. We are beginning to think of the universe as Columbus thought of the earth, something enormous but big; something whose limits we can fix; something capable of being imagined and studied as a single complete whole."

Invents Unsinkable Ship

The invention of an unsinkable ship is claimed by an engineer in Germany. He has made a steel model three feet long which, under a load of 55 pounds and with holes bored in the sides, cannot be sunk. If pushed under water the vessel rises to the surface again and the water pours out through the holes.

An authority claims that a goose can live 60 years. Quite a number of humans just begin to realize it at that age.

Gold Prospects Not Promising

Geologist Does Not Expect That Gold In Large Quantities Will Be Found At Fire Lake

It is hardly likely that large discoveries of gold will be made in the Fire Lake area south of Moose Jaw, Sask., considered Professor P. H. Sisson, of the Department of Geology at the University of Saskatchewan, when questioned regarding possibilities in that area.

Hay Mountain Creek drains what are known as the Saskatchewan gravels, round water-worn quartzite boulders which were carried by great rivers flowing from the Rockies, in the times before this area was invaded by glaciers some 30,000 years ago, he pointed out.

It is possible that a certain amount of gold deposited as placers in these gravels might have been re-sorted by later water action. There is also a possibility that material brought down from the north by the glaciers might have been re-sorted with a separation of gold.

A small amount of gold might have accumulated in these ways, but it is not where one would expect to look for it, he said.

Japanese Going Into Poultry

Five Thousand Eggs From B.C. Shipped To Japan In One Week

Five thousand British Columbia eggs were shipped in one week to Japan. Japanese experts visited British Columbia poultry farms and selected, almost to an egg, the hatching stock they required. Then they went to the Record of Performance office, Winch Building, Vancouver, and placed large orders.

These eggs at prices ranging from \$5 for each egg to \$10, \$20 and \$30 a dozen. G. J. Smith of the R.O.P. organization, Vancouver, says that the Japanese, formerly buyers of B.C. hens and cockers, are now getting well into the poultry business and are learning scientific hatchery management. They are using British Columbia stock for the foundation of their poultry industry," Mr. Smith said.

When Asthma Comes do not despair. Turn at once to the help of Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely.

Choking, coughing, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer, but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

Valuable Tablets Found

Throw New Light On Religion At Time Of Abraham

Religious scriptures nearly 4,000 years old have been brought to London, England, by C. Leonard Woolley, who just returned from Ur of the Chaldees. There are important inscriptions and tablets which throw new light on the history and religion of people who lived at the time of Abraham, about 2000 B.C.

"They represent the worship of God by the common people," he said, "and found them in little chapels built along the public streets of Ur."

Australia is trying to nationalize its overseas transport.

Revise Trade Treaties

Between Twenty and Thirty Treaties Will Be Subject To Revision

Within the next year, between 20 and 30 Canadian trade treaties are to be revised, according to a statement made a few days ago in the House of Commons by Hon. H. H. Stevens, Minister of Trade and Commerce. While no comment was obtainable on a cable from London, England, that Poland was seeking a commercial treaty with Canada, it is assumed representations by that country will be under consideration when other treaties are reviewed.

Poland is one of the more important European nations with which Canada has no trade agreement.

Canada's trade with Poland is at present not large. In 1929 imports from that country had a value of \$139,000 and exports from Canada \$73,000.

Majority Are Canadians

Interesting Figures About Members Of House Of Commons

Of the 245 members of the House of Commons, 215 were born in Canada, 53 are French-Canadians, those of Scotch origin number 58; 41 are of Irish parentage, and 12 of English. Religiously the membership is divided as follows: Roman Catholics, 70; United, 60; Anglicans, 49; Presbyterians, 49; Baptists, 7; Lutherans, 4; Jews, 3; Unitarians, 3; Mormons, 1. Lawyers head the list with 72 members; farmers have 52; doctors, 30; merchants, 17; manufacturers, 12; business men, 13; lumbermen, 9; druggists, 3; dentists, 4; journalists, 6; preachers, 3.

WEIR DEFENDS CHARGES AGAINST HIS DEPARTMENT

Ottawa, Ont.—No answer was required to charges that officials of the Department of Agriculture were incompetent and inefficient, Hon. Robert Weir, Minister of Agriculture, stated in the House of Commons when consideration of the agriculture estimates were resumed.

His own actions since taking over the department were the best answers that could be offered. He thought there had been fewer dismissals in his department than on any former change of government. Out of some 2,500 employees of the department only two or three had been dismissed. A. F. Totlake (Lib. Humboldt), said the minister should make a statement on an article which appeared in several papers in the west reflecting on the staff of the department and on the former minister, Hon. W. Motherwell. The House should not vote supply to the department until the charges were disposed of.

"When I spoke in the House the other day," said Mr. Weir, "did not think it worthwhile to say anything about the article. I have always been careful to speak in the kindest terms of my predecessor in public utterances inside the House. The officials of the department need no defence."

Henry A. Mullins (Cons., Marquette) charged the late government with creating the present conditions surrounding the cattle industry. He predicted Mr. Motherwell's successor, Hon. Robert Weir, never would "cost the country \$9,500,000 chasing through the country endeavoring to find out if moose eggs are fertile or if barley has whiskers."

Whoever had written the article in question, he did not know, said Hon. W. R. Motherwell, ex-minister of agriculture, but he proposed to defend the officials of the department.

The other day the member for Hastings South (W. E. Tamm) had "mumbled" a statement reflecting upon the accuracy of the department figures. Mr. Motherwell expressed utmost confidence in such returns.

Natural Gas Waste

Upon Chemistry Resists the Burden of Solution of Serious Problem

Upon Chemistry Resists the Burden of Solution of Serious Problem in Turner Valley, Alberta, remains a problem of extreme seriousness and urgency, and upon chemistry rests the burden of solution, Dr. G. S. Whitby, director of the chemistry division of the National Research Council of Canada, told the opening session here of the 14th annual convention of the Canadian Chemical Association.

At a meeting of the Canadian Institute of Chemistry, subsidiary of the association, Professor A. T. Cameron, University of Manitoba, was named president. Dr. T. Thorvaldson, University of Saskatchewan, was elected to the council.

Chinese Want Munitions

Southern Armies Buying Equipment To Fight Nationalist Government Forces

Hong Kong, China.—A contract has been signed between leaders of the southern armies and a firm of munition manufacturers for a million dollars worth of shells, bombs, grenades and rifle ammunition with which to combat Nationalist Government forces. Heavy shipments of arms from Germany and Japan, it was said, have been unloaded at Canton in the last few weeks and the combined Kwangtung and Kwangsi armies have sufficient munitions to hold out for six months.

Protection Of Copyright

Winnipeg, Man.—Authors who wish complete protection of Canadian copyright for their stories, register them at Ottawa, or indicate in the articles that they are "copyright," according to judgment of Mr. Justice Donovan. Otherwise, if a newspaper had no reasonable grounds for suspecting that "copyright" subsisted in the work, it was entitled to publish it.

Swedish Flier Promoted

Stockholm, Sweden.—Captain Albin Ahrenberg, Swedish flier who participated in the removal of Augustine Courtland, British meteorologist, from the Greenland ice plateau, has been promoted to the rank of a captain in his navy in recognition of his feat. His direct rise from a non-commissioned officer was considered an unprecedented distinction in Sweden.

W. N. U. 1892

Faster Freight Service

C.N.R. Carries Short-Line Package Freight In Baggage Cars

Winnipeg, Man.—Faster and more frequent delivery of package freight to short-haul points along certain lines of the Canadian National is being effected by Vice-President A. E. Warren to be the object of an experiment which is now in effect in the Winnipeg region. The experiment is the carrying of less-than-carload lots by baggage car of the regular run of passenger trains. The new service went into effect May 22, between Winnipeg, Belmont, Brandon and Virden, and a similar baggage freight service has been established between Saskatoon and Edmonton by way of North Battleford, and between Calgary and Edmonton, by way of Mirror.

Cattle Shipments To Britain

First Of Several Weekly Shipments From Saskatchewan

Saskatoon, Sask.—One hundred head of Saskatchewan cattle went forward to the British markets recently, 30 of which were taken from a feed lot within half a mile of Saskatoon. This is the first of several weekly shipments that will be made by the Saskatchewan Co-Operative Livestock Producers Limited. The cattle were taken from the J. H. Langham farm situated one and a half miles out on Avenue "B" North, and were purchased by Mr. Langham under the government feed scheme. They were Hereford steers and averaged between 11 and 12 hundred pounds.

SOVIET POLICY OF GOVERNMENT MEETS CRITICISM

Ottawa, Ont.—A protest against the action of the Dominion Government in banning imports of coal, pulpwood, and other commodities from Russia by order-in-council, was voiced in the House of Commons by Henri Bourassa, Independent member for Labelle. He failed to see where the government had secured a mandate to take such action. If there was to be a protest against conditions in Russia, such protest should have been made by the parliament of Canada.

Mr. Bourassa found some inconsistency in the attitude of the Government toward Russia. Our sense of social order and justice stood "aghast" at the idea of purchasing coal and pulpwood from Russia, but why had the Soviets been invited to attend the London conference of wheat-exporting countries, presided over by Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain. He presented a motion that "the House regards the growing practice of deciding by order-in-council important matters of public policy, as an encroachment upon the duties and privileges of parliament and a violation of the principle of responsible government."

The Russian situation was excellent to use as an example because in the last ten years every step in diplomatic and trade relations between Canada and Russia had been taken by order-in-council, he said.

Mr. Bourassa wondered if private interests were not an influence in the banning of Russian products. Senator Webster, he said, had a monopoly of the sale of Welsh coal in this country, and Sir Herbert Holt, with the International Paper Company, monopolized the pulpwood situation.

If Canada was not going to trade with Russia on religious grounds because that country was atheistic, was this country going to stop trading with the United States where capitalism and materialistic beliefs ruled?

Remembrance Day

Bill Passed To Fix Permanently November 11 As the Date

Ottawa, Ont.—After a prolonged discussion, a senate committee passed the bill to fix permanently the celebration of "Remembrance Day" upon November 11. It would separate the observance of "Thanksgiving Day" and "Armistice Day," fixing the latter upon November 11, and leaving the former to be proclaimed upon any day chosen by the Dominion cabinet. The bill will go back to the senate for final consideration.

During the committee discussion, some criticism was made of the plan of having two distinct holidays.

On behalf of the various veterans' associations, J. R. Bowler, general secretary of the Canadian Legion, presented for separate celebrations of "Thanksgiving Day" and "Remembrance Day."

Canadians Lose Credit

Contributions To Cultural and Economic Development Frequently Ignored

Ottawa, Ont.—Canadian contributions to the cultural, social and economic development of North America are often ignored, Professor J. Bartlett Brebner, head of the Canadian History Department of Columbia University, New York, told the Canadian Historical Association here.

"Canadian inventors, scientists, artists and professional men have naturally carried their ideas to the largest North American markets, and, once there, no one has been concerned to separate their contributions from the general pattern of living."

Gold Seekers Are Busy

Many Claims Staked Along Sheep Creek At Okotoks

Okotoks, Alberta.—Search for placer gold has gripped this oil town during the holiday week-end, and many claims have been staked along Sheep Creek, within a stone's throw of the town boundaries. One report said a fair-sized nugget had been found.

Operations have been carried on by the handful of prospectors at a rapid pace and with the creek being quite shallow much of the bed is being explored.

Whether the search is bringing paying returns has not been ascertained.

Wheat Clearances To Europe Are Higher

Over 20,000,000 Bushels Shipped First Three Weeks In May

Fort William, Ont.—The May rush of Canadian wheat to foreign markets swelled the month's total to over the 20,000,000 bushel mark last week, the weekly report of E. A. Ursell, statistician to the Board of Grain Commissioners, shows. Clearances for the week ending May 22 were 5,055,471 bushels, and do not include shipments of Canadian wheat from United States ports. A report of U.S. clearances has not been received.

Meeting For Farm Women

Saskatoon, Sask.—Women members of the farming population of Saskatchewan will gather at Saskatoon during the second week in June. At the farm women's university week, June 9 to 12, subjects of interest and importance to women on the land will be discussed in detail. The attendance is expected to be large.

Humor Is Denied

Halifax, N.S.—Sir Richard Squires, prime minister of Newfoundland, cabled the Canadian Press there was "absolutely no truth in newspaper stories" that his government was negotiating the sale of Labrador.

BACK FROM JAPAN

Hon. Herbert M. Marler, Canadian Minister to Japan, is back on native soil, and arrived at the Canadian capital a few days ago.

Minister Of Justice

May Go To Britain

To Hold Watching Brief In Appeals Before Privy Council

Ottawa, Ont.—Hon. Hugh Guthrie, Minister of Justice, plans to visit the Old Country this summer, to hold a watching brief, as it were, in several important appeals going before the Privy Council. It is understood that the natural resources appeal is to be heard, also the security frauds appeal. Mr. Guthrie's visit is conditional upon there being no Imperial Economic Conference here this autumn, and also upon an early conclusion of the session of parliament.

Twister Wrecks Train

Tornado Lifts Twelve Steel Coaches From Track Near Fargo

Fargo, N.D.—A tornado wrecked the Great Northern passenger train, "Empire Builder," about eight miles south of here, killing one person and injuring a number of others. The twister lifted the train from the tracks.

Twelve steel coaches comprising the train were turned over on their sides. The engine and tender alone remained on the track. The man killed was believed to have been a section worker. He was pitched through a window as the coaches were blown from the rails.

No Cause For Damage Claim

United States Claims "I'm Alone" Was American-Owned

New York.—A special despatch to the New York Times from Washington says:

"The demand of Canada for damages for the sinking by the coast-guard of the run-running schooner, 'I'm Alone,' 200 miles off the Louisiana coast on March 22, 1929, will be met by the United States with the contention that the vessel was in reality American-owned and that no just cause lies for a damage claim."

Given Honorary Degree

Toronto, Ont.—A governor-general and two prime ministers were honored by the University of Toronto, when the Earl of Dunsborough, Rt. Hon. R. B. Bennett, Prime Minister of Canada, and Hon. George S. Henry, premier of Ontario, received the degree of Doctor of Laws at a special convocation.

Western Boy Joins Navy

Kingston, Ont.—E. C. Mayhew, Moose Jaw, is one of 17 cadets of the Royal Military College who will join the Royal Canadian Navy on June 1, for the summer course, which lasts until August 15.

Loss Of Russian Submarine

Craft Goes Down After Explosion With All Hands On Board

London, England.—Russian aeroplanes and warships circled above the spot where Soviet submarine No. 9 of the Baltic fleet sank, Friday, May 22, 1931, in a pool of oil.

Although the Soviet Government remains silent on the tragedy, despatches from Riga, Latvia, said it was understood the craft went down after an explosion presumably with all hands, about 100 miles from Helsinki, Finland.

Moody despatches said the submarine failed to rise after making a dive during manoeuvres with other vessels of the fleet.

The number of the crew or the extent of the casualties was unknown. Russia is believed to maintain a fleet of about eight submarines, 12 destroyers and three battleships in Baltic waters.

Rum Ring Probe

Enlargement Of Investigation Is Urged In Senate

Ottawa, Ont.—Enlargement of the Quebec-St. Pierre-Miquelon rum ring probe to include the Maritime provinces was suggested in the Senate by Senator J. J. Hughes. He was informed, he said, the government intended passing an order-in-council within a short time, fixing the powers and scope of the investigation.

Short-circuiting of liquor cargoes from the islands of St. Pierre and Miquelon to isolated spots in Quebec was charged against the rum ring, Senator Hughes declared. The Federal Treasury, he was convinced, had been misled out of millions of dollars in excise duties, but he did not believe the activities of the ring were limited to Quebec province.

DAIRY GRANT UP FOR DEBATE IN COMMONS

Ottawa, Ont.—In a brief but somewhat heated discussion of agriculture department estimates, in the House of Commons, low butter prices bulked large in the discussion.

For dairying, of which \$3,000,000 for dairying, of which \$3,000,000 for a grant to the National Dairy Council, furnished the basis for the discussion. Almost at the outset came a motion to cut down the total amount by \$5,000. E. J. Young, Liberal member for Weyburn, who moved the reduction, asserted the council had been an organization to "propagate" Tory policies, and that through unfortunate choice in its officers had produced nothing better than recommendations for higher duties on agricultural products.

The grant had been voted for several years, rejoined Hon. Robert Weir, Minister of Agriculture. If he discovered at the end of the present financial year that the National Dairy Council had done nothing to earn it, he would be willing to see it dropped from next year's estimates.

Regret at the decline in butter prices was voiced by Mr. Weir. He spoke of an agreement which he had made with Mr. Parker Moloney, Australian Minister of Markets, that no butter should enter Canada from that country at less than 32 cents per pound "except by mutual agreement." If entry at a lower price would injure Canadian farmers, he said, subsequently, the minister said, price cutting among Canadian organizations had materially reduced the price until it was thought that "rock bottom" had been reached. He had then released Mr. Moloney from the agreement.

Complaints were voiced by Liberal members that the Conservatives, during the last campaign, had declared that butter prices would rise as soon as Mr. Bennett was returned to power.

If the National Dairy Council did as much for agriculture as it had when he was minister, said Hon. W. R. Motherwell, former minister of agriculture, it would get his support. He asked Mr. Weir if the total figure of \$9,929,000 for agricultural estimates included the supplementary estimates of last year. When the minister said it did not, Mr. Motherwell declared the amount to be spent in the coming year was not \$400,000 higher, but was actually about \$100,000 lower than last year. Mr. Weir agreed, that if the supplementary vote were taken into account, that appeared to be correct.

Butter had been a prolific cause of discussion during the election, Mr. Motherwell proceeded. The true criterion of the progress of dairying was in milk production. During the 10 years of Liberal government the production of milk had advanced from 10 billion pounds to 14 billion pounds, an increase of 40 per cent.

NURSERY FARMS IN WEST WILL BE CONTINUED

Ottawa, Ont.—Dominion government nursery stations at Indian Head and Sutherland, Sask., will continue in operation and arrangements have been made to administer them until the end of the present fiscal year through the Department of Agriculture.

Hon. T. G. Murphy, Minister of the Interior, made this statement in the House of Commons when queried by Hon. W. R. Motherwell, former minister of agriculture.

The object of the stations, Mr. Murphy stated, had been to supply free nursery stock to the farmers of Western Canada. They had formerly been administered by the forestry branch of the Department of the Interior. When the natural resources of the Western provinces were taken over by the provincial governments last year, no arrangements had been made for the carrying on of the work by the provinces.

As the service was supplied only to the three Prairie Provinces the question had arisen as to whether it was not a purely provincial matter now that the provinces had control of the natural resources. Pending a decision on this point the work would be carried on for the present year.

World's Altitude Record

Balloons Claim To Have Reached Height Of 52,500 Feet

Innsbruck, Austria.—Prof. August Piccard, rearing the Alpine eagle of Gurgi, said his adventurous flight into the stratosphere had been "magical beyond conception," and that he and Charles Kipfer had broken the world's altitude record by more than 12,000 feet.

He claimed they had reached a height of 52,500 feet, or more than nine miles.

They never lost control of their balloon, he said, and they gathered valuable scientific data in their long hours aloft in the metal gondola suspended from the gas bag.

The balloon itself lying on the "Grossglockner Farn" 9,000 feet up in the Alps, & to be salvaged by a detachment of the Tyrolean Alpine chamois.

"We're both very tired," the physicist said, "but otherwise we're well and happy. Our balloon is safe and the slight damage to the instruments is hardly worth mentioning."

"The weather was excellent for observations. But the buoyancy of the balloon was so great that we could land only after the sun had gone down."

"We landed smoothly but too late to look for human habitations so we spent the night in our gondola."

Early in the morning, he said, they got their bearings and walked down the mountainside toward Ober Gurgi, meeting the rescue expedition as it came up.

Hermetically sealed within the aluminum ball, Professor Piccard, a Swiss physicist and aviator, and Charles Kipfer, the giant balloon from Augsburg, Germany.

The aluminum "basket" is seven feet in diameter. The bag, the largest ever built in Germany, has a diameter of 100 feet and held 500,000 cubic feet of hydrogen.

The object of the flight was exploration of the stratosphere to obtain new data on the origin of cosmic rays, and so demonstrate that human beings can travel and live in such a rarefied atmosphere.

Piccard and Kipfer attempted to make a flight in the balloon last September, but unfavorable winds held them to the ground.

Would Not Bear Arms

Oakland, California.—In line with a decision of the United States Supreme Court denying citizenship to applicants refusing to take oath to bear arms for the country in time of war, Superior Judge Fred V. Wood postponed granting final papers to Miss Minnie E. Dauphinee, of Oakland, Miss Dauphinee, who came from Canada, said she would nurse during a war but would never take human life.

Investigating Market Problem

Ottawa, Ont.—Problems surrounding the marketing of farm products will be made the subject of an investigation by the House of Commons committee on agriculture. A motion to this effect was made in the Commons by Hon. Robert Weir, Minister of Agriculture, and passed unanimously.

A recently invented radiophone makes it possible to talk 200 feet underground and through solid stone.

When Hon. Robert Gardiner (left), Leader of the Progressive Party in the House of Commons, attacked the Beauharnois Canal and Power Project, Premier R. B. Bennett (centre), announced a Parliamentary probe of the great private-ownership power project on the St. Lawrence. Senator Wilfrid Laurier McDougall (right), replied to the aspersions of Hon. Robert Gardiner and upheld the Beauharnois Power Company.

THE ART OF ANGLING

Angling as an art consists in going where fish are and offering them something to eat. If they take it, you are in luck; which is nine-tenths of all successful fishing, says Brendon Lee, writing on "The Incomplete Angler," in the June number of Harper's Magazine.

"And the other tenth? That is about four fifths keeping your line in the water, which leaves a generous two per cent for skill or artistry or whatever it is that your complete angler has which your incomplete angler never misses."

"In sum—and this is all that any fisherman can tell you—fishing is not and never was an art of any kind whatsoever; it does not want or need any exceptional skill, it has no rule or prohibitions that are not as much honored in the breach as in the observance. Fishing is still, as ever it was, the most artless, the most wholesome, the most childlike and, therefore, the most heavenly recreation to be found in the wide world. It is the one infallible remedy against growing old in spirit; and whether you start in the morning of life or the evening, all its benefits are yours from the beginning."

"Across the vanished years there comes to the veteran fisherman, when spring returns and he thinks of his day off, the same clear call that lifted him above earth as he ran home from school with the eager question, 'Mother, may I go fish'ing?' And still there is magic in it, the pure white magic of a boyish heart."

THINK THIS OVER

Here's what actually happened last week.

An Innisfail lady bought six cans of pineapple out of town and paid 57c for the six.

This same brand of pineapple is sold by all our Innisfail grocers any day and everyday at 10 cents per can, and we have no doubt if you want six cans you can have them for 57c.

Our merchants support your churches, schools, and in fact everything in and about town—Innisfail Province.

(By Gee)

S. J. Latta

FOR many years, commercial art, advertising and newspaper work have provided favorite fields of activity for S. J. Latta, who is in charge of publicity for the World's Grain Exhibition and Conference to be held at Regina in 1932.

Born in London, Ontario, in a family many of whom were connected in some way with newspapers and reared on a hundred acre farm in Huron County, Mr. Latta enjoyed the usual educational facilities of his native Province. After public school, collegiate at Clinton, London and St. Mary's, and Normal School at Ottawa, Mr. Latta taught school for a number of years, most of which time as principal of Old Colborne Street in his native city.

The lure of the West brought Mr. Latta to Saskatchewan in 1905, where he settled on a homestead in what was then known as "The Famous Last Mountain Valley," north of Regina. After arriving in the West, however, he became editor and publisher of two newspapers, one of which he operated for 20 years.

Mr. Latta represented Last Mountain in the Saskatchewan Legislature for a number of years and was a member of the Provincial Government for 12 years, during which time he held the portfolios of highways, education, and provincial secretary.

PREMIER ANNOUNCES BUDGET

Right Hon. R. B. Bennett, in his capacity of acting minister of finance, on Monday presented the annual budget statement to the Dominion. He announced a deficit of \$75,244,973 for the fiscal year 1930-31, which ended with the close of March.

The statements disclose the following information:

Subscriptions to the new conversion loan totalling \$639,816,500 (the maximum of the loan was tentatively fixed at \$250,000,000); cash balance in the banks at the credit of the receiver general at the close of the fiscal year totalling \$14,500,000; total liabilities of the Dominion on March 31st last of \$2,610,788,917.

Total net debt of Canada on March 31st last of \$2,261,608,316; total expenditures for the fiscal year, amounting to \$440,060,657.

Total revenues for the fiscal year of \$356,215,000.

Increases in coal duties and subsidies are announced. No duty on sugar, no change in wool duties. Penny postage is wiped out and substituted by a three-cent postage rate. Sales tax is increased from one to four per cent. Other items of revenue mentioned are:

Five-cent bonus for export wheat. Cheque taxes are imposed on all cheques.

Duty on imported anthracite coal and coke imposed of 40 cents and \$1.00 per ton, respectively.

Tax of four cents on tea, instead of free under British Preference.

Corporation Income taxes increased from eight to ten per cent.

Higher duties on higher priced automobiles.

Subsidy to help extend movement of Alberta coal to Port Francis, Ont. Bonus of 25 cents ton for B.C. bunk coal and on exports except to U.S.

Income tax exemption increased from \$3,000 to \$3,500.

No general tariff revision but 220 items affected, increases mostly being announced.

NEW BUDGET ADDS \$125,000 TO ALBERTA

EDMONTON, June 2.—The federal budget means an added cost to the provincial government of \$125,000 and a deficit of this amount will be shown when Alberta totals up the results of this year's operations next March. Failure of the Dominion to take over a larger share of old age pension costs as expected, is the reason for the blow to Alberta finances. At the last session of the provincial house the government did its budgeting on the expectation that the federal government would assume 95 per cent of the cost of old age pensions.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

SerVICES Sunday, June 7th, the pastor in charge.

10 a.m.—JUNIOR SCHOOL.

11 a.m.—SENIOR SCHOOL.

7.30 p.m.—PUBLIC WORSHIP.

The pastor's subject will be "A Varied Deed and Twelve Angry Men."

The new hymn book will be used or the first time on Sunday, June 14th, at the evening service.

Please note the change of time for the Junior school from 2 p.m. to 10 a.m. during the summer months.

ST. LUKE'S, BLAIRMORE
A. S. Partington, Vicar

SerVICES on Sunday, June 7th. Sunday School at 10 a.m. Morning service at 11.

A joint meeting of the Blairmore and Coleman Anglican Men's Association will be held at the hall on Wednesday, June 10th.

GREETINGS TO BOY SCOUTS

Edmonton, Alberta.
May 26th, 1931.

Dear Sir:—

The following are messages received from His Excellency the Earl of Bessborough, Chief Scout for Canada, and Mr. E. W. Beatty, first president of the Canadian Boy Scouts Association; which we would be pleased if you would publish in your paper for the benefit of the Boy Scouts of your town:

Message from His Excellency, Chief Scout for Canada

"On assuming the position of Chief Scout for the Dominion, I am delighted to have the opportunity of sending my greetings to all the officers and members of the Boy Scouts Association of Canada.

"I am eagerly looking forward to having many occasions, during my term of office, of becoming acquainted both with Canadian Scouts and Canadian Scouting, and of observing their progress.

"It is most gratifying to me, as Chief Scout, to know that E. W. Beatty has consented to undertake the important duties of president of the Association.

"With all my heart, I wish the new president and Boy Scouts of Canada every possible success."

Message from Mr. E. W. Beatty

"It is gratifying to think that so fine a movement as that of the Boy Scouts has captured the imagination of the youth of the world and has become so truly international. For Canada it is peculiarly fitted, as the campcraft which it teaches is so well suited to our geographical conditions. Nothing could be better than its gospel of self-reliance, self-respect, unselfishness and the pledge to help others, whatever it may cost; moreover, it appeals to the boy, as he gets a lot of fun out of this process of developing the spirit of true sportsmanship. The qualities inculcated are the qualities of the good citizen and one is not surprised that another name for a good citizen is 'a good scout.'"

Yours very truly,

THE BOY SCOUTS ASSOCIATION.
Alberta Provincial Council,
W. S. BOCKMAN,
Executive Commissioner.

Young husband: "Last night when I got home, my wife had my chair drawn up before the fire, my slippers ready for me to put on and my pipe filled; and—"

Cynic: "How did you like her new hat?"

C.G.L.T. LADIES' SOFTBALL LEAGUE

Schedule for Year 1931

Teams—Maple Leafs, Ruby Hows, captain; And Hows, C. McVey, captain; Canadians, B. Thon, captain, and Idlers, E. Fisher, captain.

June 3.—Maple Leafs vs. And Hows.

June 5.—Canadians vs. Idlers.

June 8.—Maple Leafs vs. Canadians.

June 11.—And Hows vs. Idlers.

June 15.—Idlers vs. Maple Leafs.

June 18.—Canadians vs. And Hows.

June 22.—Maple Leafs vs. Canadians.

June 25.—And Hows vs. Idlers.

June 29.—Maple Leafs vs. And Hows.

July 2.—Canadians vs. Idlers.

July 6.—And Hows vs. Canadians.

July 9.—Idlers vs. Maple Leafs.

PLAYOFFS—To decide the championship of this league the teams having first and second standing at the completion of the above games will play a series of three games on July 15th, 17th and 20th. The team winning two or more games in this series, shall be declared the winner.

IMPORTANT RAILWAY CHANGES ANNOUNCED

With the abolishment, in some districts, of the offices of the superintendents, on the Canadian National Railways, important changes effective June 1st, are announced by A. A. Tidale, general manager of the western region.

The changes include the transfer of superintendent E. Crawford, Winnipeg, to superintendent of the Melville division with headquarters at Melville.

Superintendent J. J. Napier, Melville, is appointed superintendent of the Brandon division, with headquarters at Brandon.

Superintendent J. W. Crane, Brandon, is appointed assistant superintendent at Kamloops.

Superintendent N. P. North, Port Arthur, is appointed superintendent of transportation of the Manitoba district, with headquarters at Winnipeg.

Superintendent D. W. Steeper, Saskatoon, is appointed superintendent of the Port Arthur division with headquarters at Port Arthur.

Assistant superintendent S. McElroy, Kamloops, is appointed assistant superintendent at Hanna.

Assistant superintendent W. Smith, Hanna, is appointed general yard master at Edmonton.

General superintendents at Winnipeg and Saskatoon will take over the duties of superintendents of the Portage division and Saskatoon division, respectively.

AID FOR MINES

Coal operators of Lethbridge and the Crows' Nest Pass are studying the new schedules against U.S. coal, also the extension of the subvention on bituminous coal to Fort Francis and Sioux Lookout, Ont.

O. E. S. Whiteside, manager of the International Coal and Coke Company, Coleman, said the budget is likely to prove helpful in getting a larger hold on the Winnipeg market, but it was doubtful if it would lead to any large movement into Ontario.

Mr. Whiteside said the new tariff provisions would likely mean higher prices for coal in Ontario. "We are hopeful the budget will give us a larger share of the home market, and believe it will in Manitoba, but beyond Winnipeg it is still a doubtful question. Our mines are working only part time and with the railways curtailing services, including the cancellation of crack through trains, the outlook for railway orders is not at all bright," said Mr. Whiteside.—Lethbridge Herald.

For breaking into the Pincher Creek vendor store, stealing a quantity of liquor and stealing the past-master's car, three men were sentenced to from two to three years in Prince Albert penitentiary.

DISTRIBUTOR WANTED CANADIAN FIRE-KING STOKER

Attractive franchise available for aggressive selling organization with experience in combustion engineering and acquaintance with heating trade. Offers the largest line of underwriters' stokers manufactured in Canada, from domestic to heavy duty power plant units. Have been manufactured and sold successfully in the United States for the past five years and given great satisfaction. Apply immediately to THE MANITOBA BRIDGE & IRON WORKS LTD.

MACHINE IS LIKE GENIE NEW YORK, May 28.—Robert Mendenhall, one of the party of seven young men and women lost when the sloop Sea Fox disappeared in Long Island Sound, was described today as a mathematical genius.

Twenty-nine years old and a statistician at Columbia university, Mendenhall and a co-worker had invented a calculating machine. Equipped with a thousand electric fingers and designed to do the work of dozens of clerks, it can automatically turn out

a table of logarithms in three minutes and figure an astronomical table in the same time, associates of Mendenhall said.

When punched data cards are placed in it, the machine correlates the results of school examinations to show the relationship of ability in one subject with ability in others. It is also possible, Mendenhall's friends averred, to show the relationship between the intelligence quotients of students and the marks they receive from their instructor.

Thumb Nail Sketches By Cy

Q: One morning last summer, Jim Stalk, a farmer of the Last Mountain district out West, jumped out of bed, lit the lamp, kindled a fire in the kitchen stove and proceeded to call the help.

Cy Hayrack, the new farm hand, answered drowsily, not up in bed, rubbed the sand out of his eyes and then proceeded to dress in the dark. "Egad," he mused, "this is going to be some job. I don't mind being called early in the morning of the next day after I go to bed, but to be roused out of bed on the night of the same day—"

A half hour after he and the boss had fed the horses, cleaned out the stable, put on the harness and pursued the trough full of water.

"Now, Cy," said the boss, "after breakfast you help the women to milk the cows and separate the cream, feed the pigs and put the sheep in on the summerfallow. You'll find some time in the tool house. Mix up some whitewash and do over the inside of the hen house. Then you can get some tools and fix up the windmill so we won't have to pump water by hand. The gasoline engine in the feed barn is out of order. See what's the matter with it and get it in running order. The southeast side of the garage needs a bit of paint. There's lots of paint in the tool house.

They moved toward the house—and breakfast.

"By the way, Cy," continued the boss, "when you are at the garage take a look over the car. She's been missing a lot lately. Maybe there is a short circuit somewhere. Oh, yes, I was over on the north quarter yesterday and the weeds are getting up a bit. You better give the small tractor a complete overhaul so that it will be ready to hitch up to the plow. I'm going to do some work on my books after breakfast and attend to some correspondence. I have a chance to sell some of my pure bred cattle."

After breakfast Cy picked up a milk pail.

"Just a minute, Cy," said the boss, "before you start to milk give Bill a hand. He's going to give that sick colt a dose of medicine. The bottle is all ready on a shelf in the stable. I brought some new canvas over home from town and there is some strong thread in the parcel. You might fix up the binder canvas as it is liable to go to pieces when we start up. While you are at that you can take some waxed end and repair the single harness."

Cy said nothing but proceeded in the direction of the barn yard.

The boss called, "Say, Cy, I hope that you haven't planned going out this evening, because we are going to sort out our exhibit for the World's Grain Show at Regina in 1932 and we would like all the help we can get. I've about five bushels of choice seed all put two or three times through the mill and we want fifty pounds of the best we can get. I'm going to win a—"

"Well, now," said Cy, "I've worked on a farm for quite a long time, I'm fairly versatile. I know that versatility plays a greater part in the success of farming than it does in any other business on earth. A farmer must be an agriculturist, a harness maker, a painter, a blacksmith, a botanist, an electrician, a master mechanic, a financier, a business man, a veterinarian, a salesman, a carpenter, a public servant, a—"

"There is no now in front of the 'table,'" said the boss, "what are you thinking about?"

"I know there isn't," said Cy, "but there will be by the time I have carried out your instructions."

WILKIE'S Glove-Phit SHOES

Correct Minor ailments of the feet...

Scientifically designed to prevent and correct foot ailments, these beautifully fine shoes have all the smartness and grace of the most expensive footwear.

We guarantee a perfect fit for any foot, plus supreme comfort. Come in and try on a pair. Even if you do not want to buy now.

The ideal shoes for nurses and those who have to be on their feet a lot.

Meets Second and Fourth Tuesdays
at 8 p.m. in the Moose Hall. Visitors
made welcome. W. W. Scott, Exalted
Ruler; J. R. McLeod, Secretary.

Local and General Items

It is said that Scotchmen are wearing sidlights to save a nickel on their chin shave.

Alberta provincial police will likely take over the policing of the city of Wetaskiwin.

Michele Schirra, a naturalized United States citizen, was executed at Rome for plotting against the life of Mussolini.

A very successful afternoon tea was held at the home of Mrs. E. Hutchinson, Hillcrest, on Wednesday, May 27th, in aid of the Pythian Benevolent Fund. Mrs. Hutchinson wishes to thank all who helped to make the tea such a success. A beautiful decorated fruit cake was won by Mrs. Elizabeth Watson, of Hillcrest.

An old-timer in the person of Mrs. Mary Winstanley passed away at Michel recently. Mrs. Winstanley is survived by two daughters and four sons, Mrs. E. Evans and Mrs. A. C. Flint, of Michel; Robert Winstanley and Oliver Winstanley at Michel; William, at Nelson, and Thomas, at Willam, Lancashire, England.

Further results in the provincial musical festival, of interest locally, are: Jean Cruickshank, of Hillcrest, attained second place in Junior piano; Pincher Creek junior choir, third place; Mrs. D. Thomas, of Hillcrest, first in dramatic solo; A. B. McMurdoo, Pincher Creek, and A. Tomlinson, Calgary, tied for second place in the baritone solo competition for the Stenbury Cup.

Owing to a slight mishap occurring at the Orpheum theatre on Saturday night, the talkie-movies have been out of commission since. Mr. R. Naldi went to Calgary on Sunday and in all likelihood will be obliged to install a new and more modern equipment.

Rinaldi returned from Calgary last evening and we understand will have his theatre in operation tomorrow night.

At the recent Edmonton district musical festival, Room 3, McDougall school chorus, under the direction of Miss Janet Nicol, won first place with 152 marks. Speaking of the contest, Dr. Collingwood, adjudicator, said of the winners: "They sang at a leisurely pace, which was pleasing without being dead, very nice phrase treatment, lovely tone and best sense of pitch of any entry; they knew their work and they enjoyed it." Miss Nicol was formerly connected with the Blairmore teaching staff.

The new palatial C.P.R. liner Empress of Britain concluded her maiden voyage across the Atlantic, reaching Quebec in the record time of five days, twelve hours and twenty-five minutes from Southampton. Speaking of the ship, President Beatty stated: "The ship has realized our fullest expectations in design, beauty of decoration, spaciousness, dignity, accommodation and performance. I do not think there is a vessel in the North Atlantic service of any nationality comparable to the Empress of Britain in attractiveness to the travelling public. If through her entry into the service the St. Lawrence route does not receive the attention and the favor it deserves, I will be very disappointed."

Mrs. Pennington (very indignant): "There's no honesty anywhere these days. My maid has run away with three of my newest gowns."

Mrs. Rathmore: "Which ones were they?"

Mrs. Pennington: "Why, the three I smuggled through the customs this spring."

The lights in a crowded bus had failed.

"Can I find you a strap?" inquired a tall strap-hanger of a lady who had boarded the bus at the last stop.

"Thank you," she replied, "but I have one already."

"Then would you mind letting go of my tie?" said he, shyly.

Delivery today

On the
World's
Lowest-cost Tire
For Grain Trucks

It costs money to tie up your grain truck waiting for new tires from out of town. And it's unnecessary! We have your size right here, in the biggest value tire in Canada — the Goodyear Heavy Duty. It's ideal for grain truck service — laughs at cross-field hauling, rough roads, and shocks at high speed! Its specially built Superwrist carcass is the reason. And its newly-designed All-Weather Tread offers even greater traction grip and longer wearing quality.

Get our big-value price on your size now.

Put a new Goodyear Tube in every new casing.

BLAIRMORE, ALBERTA

GOODYEAR HEAVY DUTY

BETTER HUNTING

The Bassano Fish and Game Protective Association is doing good work this spring. This organization has taken steps to improve conditions for the rearing of ducks and geese, has made arrangements for the raising of Chinese pheasants, and has enrolled a membership of 36.

The results of this work should be well worth the effort. By planting wild rice, sago pond weed, etc., which the game birds are particularly fond of, the feeding grounds in this neighborhood should prove more attractive to ducks and geese, and the numbers of these birds may be expected to increase.

This will make better hunting for those who like sport with the scatter gun. It is also believed the quality of the meat is improved in birds feeding on these plants.

The benefits the hunting fraternity may gain by raising Chinese pheasants cannot be foretold, as the introduction of these birds is an experiment, and their ability to withstand the rigors of our climate have not yet been determined.

The association also hopes to improve the sport of fishing, and is investigating the possibilities along this line.

The immediate benefits of the work of the association may be small, but in a few years time they will be more pronounced through increase in numbers and variety of game birds and improvement in quality.

CANADIAN BUFFALO GO TO HOLLAND

A magnificent pair of Canadian buffalo, male and female, from the National Park at Wainwright, Alta., is enroute to Rotterdam, Holland, where they will be placed on exhibition in the Rotterdam Zoo. Extreme care was necessary in the shipping of these animals on account of their semi-wild condition, and they were loaded in individual crates, in which they will be confined until they reach their destination.

The family was seated at the table with a guest, who was a business acquaintance of dad's, all ready to enjoy the meal when the five-year-old son blurted out: "Why mother, this is roast beef!"

"Yes," answered the mother, "what of it?"

"Well, pop said this morning he was going to bring that big fish home for dinner tonight."

COWLEY HAPPENINGS

A baseball game was played on the Cowley recreation grounds on Sunday afternoon between the Tod Creek and Porcupine Hills teams, with Tod Creek winning to the tune of 13-6. Tod Creek entered the field for a second time, against Cowley, losing to them 11-12.

The Rufous humming birds, we notice, arrived here this year in the last week of May. On previous years, they have not made their appearance until around the first of July.

A much-needed rain of 1 1/2 inches fell on Tuesday last in this locality. Warm weather now would insure rapid growth.

Mrs. A. G. Swart returned on Sunday from a visit to Lethbridge.

CORBIN HAPPENINGS

Mr. and Mrs. Jimmie Stevenson are to be congratulated upon the birth of a daughter on Saturday, May 30th.

Mr. and Mrs. W. Porter and Master Hugh Blair left by motor for Vancouver on Monday last.

Mr. F. Roberts purchased a car the early part of this week.

George LeRoy was unfortunate during the holiday, in so far as he smashed his car, but received no personal injury.

Friends of Mr. Alvin Peters, who was severely injured in an airplane crash at Fernie recently, will be glad to hear that he is now considered to be out of danger. It is to be hoped that it will not be long before Mr. Peters will be sufficiently recovered to return to his home here.

James Barnes and family were unfortunate on Monday last, when the car they were riding in was run down by another car. Fortunately, no one was hurt.

The Corbin highway, having been recently graded, is now in good condition for the passing motor traffic.

George Elliott, wife of Dr. and Mrs. Elliott, arrived home this week from Kingston, Ontario, where he has been attending Queen's University. His friends will be glad to know that he is successfully completing his second-year medical course.

Corbin's football team visited Michel on Sunday, where they were successful in holding the home team to a 1-1 draw.

Mr. and Mrs. C. R. Shaw were Fernie visitors on Monday last.

Miss M. B. McRitchie returned to her home in Fernie on Saturday.

A Private Income of \$100 a month for Life

... from age 55!

\$100
A MONTH
if in good
health

Just picture it—At 55, while still well and vigorous, to come into a private income (over and above other revenues), guaranteed for the rest of your life, of \$100 a month.

You simply make yearly or half-yearly deposits of an agreed amount for a specified period, at the end of which you begin to receive a monthly income for life.

That's only part of the story. If, meanwhile, through sickness or accident you should become totally disabled, you cease paying premiums and receive \$100 a month during such disability. At age 55, the regular income of \$100 a month, unimpaired, comes into effect.

\$100
A MONTH if
in ill health

Look how your family is protected—Should you die at any time before reaching 55, your family receives \$10,000.

Fill in and forward this form (which involves you in no obligation) and exact figures suited to your individual need will be sent you.

SUN LIFE ASSURANCE COMPANY OF CANADA

BEATTY LENDS A HELPING HAND TO OVERWORKED TICKET AGENT

Dorval is a typical little country station about ten miles from Montreal, says Jack Paterson, of Deerpore, Man., in a personality article on president Beatty of the Canadian Pacific Railway in the June Railroad Man's Magazine. Its agent, relieving a man on vacation and worrying with his monthly balance sheet, was crouched over his desk one summer evening.

"Does No. 17 stop here tonight?" asked a voice from the doorway.

"Yes, I believe it does," the agent replied, after a moment's hesitation.

Suddenly an idea dawned. This man had spoken as one who knew the iron road, and his face was vaguely familiar. Meantime, the sets of figures looked as hopeless as ever. Desperation drove the agent out to the platform.

"Are you a railroad man?" he asked. Receiving an affirmative reply he added, "Do you know anything about balance sheets?"

Within a few seconds the pair were exchanging cash book, delivery book and outstanding sheet until, "Ten min-

utes later, the noise of No. 17 pulling up outside brought the partnership to a close.

"I'm ever so much obliged to you 'for helping me," said the station agent. "Do you mind telling me your name?"

"Beatty," said the man, with a pleasant nod and a cheery "good night" which failed to dispel the agent's consternation.

"Are you the president?" he gasped.

"Yes," answered the head of the world's largest privately owned transportation system, "but that isn't important; the main thing is to get the balance sheet right."

In the same issue of Railroad Man's are three other illustrated Canadian features. W. J. Banks, of 383 Sachville St., Toronto, writes on "Traveling Schools in Canada." Other authors tell how the Canadian Pacific Railway was host to royal scions of two reigning dynasties—King Prajdh-hipok, of Siam and Prince Takamatsu, of Japan—and how Benjamin Daniels, heroic C.P.R. engineer, drove his engine seventy-two miles while suffering from a broken hip.

GUTTA PERCHA TIRES GUM CUSHIONED

Accurate Curing—Timed to a Second

Machinery and equipment of the most modern type, much of it designed and perfected by "GP" Engineers, assure the production of tires of uniform wearing quality.

Much depends on the final operation in tire building—vulcanizing. The electrically time-controlled "watchcase" heaters insure absolute uniformity of curing. No human errors are possible. The Gum Cushioned carcass and the Resisto Tread are perfectly welded together in these precision vulcanizers—so thoroughly are they united that it is impossible to separate them under any normal conditions to which a tire can be subjected.

The purchase of "GP" tires will reduce the cost of your car upkeep by increasing your tire mileage. There's a Gum Cushion Tire Station in your district. Call around and get acquainted.

WORLD HAPPENINGS BRIEFLY TOLD

Hoping to settle internal troubles in B.C., the government will ask Peter Vergein to hand over the colony of Crestovia to the Sons of Freedom.

Queen Mary was 64 years old on May 26, and felicitations poured in from her wide circle of relatives, friends and admirers.

Hon. Herbert Marler, Canadian minister to Tokyo, in an interview, urges Canadians to go after Oriental trade.

Regulations governing the shipment of cattle from Canada to Great Britain have been amended to permit the carrying of cattle on open decks in the summer months.

Within the next year between 20 and 30 trade treaties are to be reviewed, according to a statement made in the House of Commons by Hon. H. H. Stevens.

Export trade in Canadian whisky ran into a tremendous slump during April. The figures were \$169,000 compared with \$2,175,000 for the same month in 1930.

W. G. Duncan, superintendent of the Prince Albert branch of the Soldier Settlement Board for two years, has been transferred to take over the superintendency of the Calgary, Alberta, office.

Gold seekers have attacked claims in the valleys of Long River and Badger Creek, seven miles northeast of Holfeld, Man. Traces of gold were found in the valleys about 30 years ago and interest has been revived.

Announcement that the British Dental Association will meet in conjunction with the convention of the Canadian Dental Association in Toronto during July, 1932, was made at the 64th annual meeting of the Ontario Dental Association.

Russian civil aviation authorities announce the intended opening on August 1 of one of the longest passenger and mail airlines in the world, extending more than 10,000 kilometers (roughly 4,000 miles), from Moscow to Irkutsk and Vladivostok.

Undergo Special Test

Locomotives Of German Railway Examined and Checked Yearly
Once a year the locomotives of a German railway are examined for stability and performance by placing them on a special test stand. Here each engine is operated for many hours as though on an actual run, and careful check is made of its performance. The whirling wheels of the stationary locomotive often revolve to equal an engine speed of eighty miles.

Alberta Fisheries

Alberta fisheries authorities estimate that more than 2,211,000 pounds of fish were caught by anglers in the province in 1930, or several hundred thousand pounds more than in 1929. Pike made up about half the catch.

"I am hungry, sir."
"Here is some bread and cheese."
"I have seen better days!"
"Then I will get you a serviette!"

SUNDAY SCHOOL LESSON

JUNE 7

JESUS CRUCIFIED

Golden Text: "He was wounded for our iniquities; the chastisement of His stripes was on us, that we might be healed."—Isaiah 53:5.
Lesson: Luke 23.
Devotional Reading: Isaiah 53:7-12.

Explanations and Comments

The Crucifixion, verses 33, 34.—We call the knoll where Jesus was crucified Calvary, from the Latin word "calvaria," a skull. There He was nailed to a cross, and on either side of Him a malefactor was hung to intensify the ignominy of His crucifixion. The four soldiers who crucified Him, after dividing His garments among them (the headress, the shoes, the outer robe and the girdle was distributed "to every soldier a part," John 19:23, 24), cast lots for the possession of the seamless inner robe. And then they sat and watched Him there (Matthew 27:36), to make sure that He was not rescued. There is a remarkable picture by William Blake, which depicts the three crosses from behind. No form or Christ can be seen. The figures are casting the dice for His garments, but they have gone behind the "cross" to do this. Light emanating from the central cross illuminates the other crosses and the soldiers. Thus the artist has sought to depict the victory of the tragedy.

And sitting down, they watched Him there. The soldiers did. There, while they played with dice, He made His sacrifice, and did not know the cross to ride. God's world of sin. He was a gambler, too, my Christ. He took his life in his own hands. If for a world redeemed. And ere His agony was done. Before the western sun went down. Crowning that day with Crimison crown.

He knew that He had won.—G. A. Studert Kennedy.

"Father, forgive them; for they know not what they do," were the beautiful words of the Saviour spoken not only for the soldiers who had merely obeyed orders, but seemingly also of the Jews who had brought about His crucifixion but had not realized the enormity of their crime. The prayer exemplifies the spirit which He had tried to inculcate in His followers when He bade them love their enemies and do good to those who despitefully used them. Think of the generous heart of the dying Saviour who could actually try to excuse—not merely forgive—but merely pray for—but actually try to find something to say in their favor. There was very little that could be said, but He looked for it and said it. Their prejudices, their upbringing, their ignorance about Him. They did not know what they were doing. If they realized it, they would not do it. Father, forgive!"—J. Paterson.

The Death, verses 44-46.—For three hours there was darkness and the veil of the temple—the curtain between the Holy Place and the Holy of Holies—was torn in two. The darkness was a type of the new and living way. The rending of the temple veil was a type of the new and living way. It opened into the presence of God for all believers. Thus these two signs vouch for the atoning death, and indicate the holiness of sin and the purpose of redeeming grace."

Charles Richards.
"Through His life and triumphant death, and through the living energy of the Spirit, we share His victory. Love which overcomes evil, and find forgiveness, freedom, and eternal life."

Fast Freight Service

From Vancouver To Montreal In Eight Days

Twenty-four hours has been cut from the running time of the Canadian Pacific Railway fast transcontinental freight service operating from the Pacific to the Atlantic seaboard. It was announced recently by the transportation department of the company. This will permit a full day's earlier delivery of freight at Montreal.

This train, which formerly took nine days in transit between Vancouver and Montreal, on the new fast schedule makes the coast-to-coast trip in eight, the time between Winnipeg and Montreal being reduced from four to three days.

The improved time rate will not only benefit the middle west, it is explained, but will prove of considerable importance to exporters, who will have 24 hours longer to prepare shipments at the point of origin and still be assured of connection with steamships at Montreal.

New Uses For Wheat

New uses for surpluses of wheat and other grains are being made the subject of an exhaustive survey by the National Research Council. It is announced. Other studies are being conducted in the hope of developing processes which will turn waste materials into products of commercial value.

Balsa wood is so buoyant that it can support almost ten times its weight.

Tuberculosis takes its greatest toll between the ages of 15 and 25.

Advocates Mixed Marriages

Union Of White and Yellow Races To Prevent Race War

Intermarriage and marriage between the Japanese and Chinese and white races in British Columbia would not only settle the so-called racial problem, but the resultant race probably would be superior to both the present white and yellow races, in the opinion of Dr. Charles Hill-Tout, noted Vancouver anthropologist, expressed in an interview in Toronto.

In ten generations, if racial and cultural prejudice would be broken down and cross-breeding continued, the characteristics of the new race would be fixed, said Dr. Hill-Tout, who is attending the sessions of the Royal Society of Canada.

Only by intermarriage to the fullest degree could Dr. Hill-Tout see any solution to the possibility of an ultimate race war, with the coloured peoples against the whites. "I think such a conflict is a possibility," he said, "if we don't check up on our air of superiority in dealing with the Asiatic peoples and give India self-government. That seems the only way to me of preventing India from aligning itself with some enemy of Europe." "All this foolish prejudice of race—just as strong on the part of the Japanese—should be broken down," he continued. Denying emphatically the common belief that a mixture of the races usually retains the vices of both and the virtues of neither, Dr. Hill-Tout said that was simply because, "with our cultural prejudice, the resultant product is forced back into the lower of the two races culturally." It was that way with the half-breeds of Western Canada, he said, who on account of the race pride of the white were forced back to live with the Indians.

Russia Keeps It Up

Country Steadily Forging Ahead To Reach Its Peak

Russia keeps it up. Her wheat crop is past a billion bushels, away ahead of any other country, and she has now reached her five-year goal in oil production in two and a half years. She has displaced Venezuela as the second largest oil-producing country. The United States is easily first. Elsewhere in this matter is published the statement of the British Secretary for War that Russia's expenditure for war preparation has increased 184 per cent since 1924, and now Russia has ordered 100 tanks from a British firm. Russia's army is steadily becoming more formidable.

Mooring Mast Coat

The cost of the airship mooring mast at St. Hubert, Que., including land, buildings, equipment and all improvements up to March 31, 1931, was \$1,846,569.16, according to a reply given in the House of Commons by Hon. Donald Sutherland, Minister of National Defence. This sum was exclusive of operating charges.

The oldest set of bells in the United States is a set of four, bearing the date 1682, which hangs in the Moorish belfry of the Spanish Cathedral in St. Augustine, Fla.

The Adventures of Captain Jimmy and his Dog SCOTTIE

WHAT CAME BEFORE: Captain Jimmy and Scottie became lost in the darkness while flying over the Chinese war zone. The Chinese soldiers were looking for an escapee, and were making their way into the light of their camp.

Cautionously I moved toward the camp. The three had burst into the darkness and now then I saw them. Certainly the outcome would be looking for an escapee, and were making their way into the light of their camp.

Boiled forward from the neck of my horse, I bridled the last of the string with my back-kick. The next one ahead of me was a white horse. I was in a moment they were in the saddle and I was in the saddle. I was in the saddle and I was in the saddle.

As I bridled closer I could make out his features. Sure enough, it was poor old Pa. He was looking at me with a look of surprise. He was looking at me with a look of surprise. He was looking at me with a look of surprise.

Meanwhile, a plan had been forming in my mind. I was going to lead the pack of the Chinese soldiers. I was going to lead the pack of the Chinese soldiers. I was going to lead the pack of the Chinese soldiers.

The health-giving, delicious drink for children and grown-ups. Found and half pound tins at your grocers

Twelve Greatest Thinkers

Dr. Will Durant Lists What He Considers Greatest Thinkers Who Has Produced

Dr. Will Durant, in a new book, lists the men he considers the greatest thinkers in the world's history. Confucius, Plato, Aristotle, St. Thomas Aquinas, Copernicus, Francis Bacon, Sir Isaac Newton, Voltaire, Immanuel Kant and Charles Darwin.

In his latest work, "Adventures in Genius," Dr. Durant says Jesus was an "immensely influential" leader, but is not included in the list of ten greatest thinkers "since it was not thought or reason but feeling and noble passion, a mystic vision and an inextinguishable faith that made Him from His little foot of earth move the world."

Shakespeare, Dr. Durant says also must be classed as an artist first and above everything else. Shakespeare is included in Dr. Durant's list of the ten greatest poets which also names Homer, David, Euripides, Lucretius, Li-Po, Dante, Keats, Shelley and Whitman.

Remove Hats When Speaking

But Three Members Wear Them In House Of Commons

Three members of the House of Commons are famed for their almost invariable habit of wearing their hats while the Assembly is in session. They take them off, of course, when speaking. They are Hon. W. R. Meigham, Minister of Agriculture in the late Liberal administration; Jean Francois Pouliot, M.P. for Temiscouata, Quebec; and Li-Col. T. H. Lennox, M.P. for North York. Sometimes Li-Col. Reginald Geary of South Toronto joins them.

Most subject to general comment is the headgear of Col. Lennox. His hat always sports band of resplendently bright laces. Just now the combination is red and white and the society editors like to call "band." But whatever the other colors, red is always included. Carrying out this scheme is the Colonel's almost unflinching custom of wearing a bright tie—the brighter, apparently, the better.

The celebrated leaning tower of Pisa is made entirely of marble.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER XIX

During the next week Nick had no time for introspection. The days were crowded with the winding up of his business—the mailing of his report and certain important papers—a letter to John Maxwell, accepting his generous offer to "take more time," and a long and loving explanation to Gay, telling the whole story, and how his decision to come back to her at once had been changed by his unexpected, almost incredible good fortune. He wrote:

Just imagine, dear girl, cruising around these tropic waters in a private yacht! Of course you tell me to go! If I weren't so sure of that I wouldn't consider it for a minute. I gather from your last letter that everything's all right at home; and though I'll admit that at night I get homesick, and wish I'd stuck to my first plan, still, I think if I did we'd regret it, both you and I.

"So I'm going. It will mean only a month there. They're to drop me where I can get a boat—probably some point in Cuba. Anyhow, send a letter to Havana. And of course I'll write if I get a chance to mail anything, though that's unlikely, and ever. I understand that the yacht's equipped with wireless, which makes me feel easier. Back the apple blossoms till I come? I don't want to miss 'em!"

"This was but a small part of that letter. Knowing, as I did, about Angela, Nick explained her part in the invitation with almost too much caution. He laid great stress on the kindness that had made her take the journey to Kingston for the sole purpose of giving him this chance. He said, as he had said so often in the past, that he felt sure Gay was unjust to her, and that she was an unhappy woman. If he could help her to forget things for a while, it might repay her a little for her thoughtfulness in asking him to go.

On the day this letter reached Bakerville, Gay was not well. She was resting in her bedroom when Sonny brought in the mail, which consisted of her letter, and the usual postcards for the little boys. Gay read them aloud to Sonny, and as he descended to share them with Uncle Slim, she turned to her own letter with a sense of overwhelming gladness. It would doubtless tell when Nick was coming. His last note had hinted that the work was reaching completion, and that she could look for him before many weeks.

Gay had missed her husband more than she would let herself admit. If, as Nick said, he felt away from her like a man minus an arm or leg, Gay herself felt a sense of oppression, as if the very heart in her breast was incomplete with Nick so far away. And for the last few days a weakness she did not understand had come upon her. It frightened her. Was she perhaps, to go through all she had suffered for little Nick again? She would not let herself face the thought. "There was no reason to think that the same experience would be hers twice. The doctor had reassured her firmly. When Nick came home everything would be all right again; and the baby was the little girl he wanted (and deep in her heart Gay knew it must be that little girl), how gallantly she could endure the suffering! It was the courage Nick always gave her

that she missed now. She couldn't stand having him away much longer. Gay read her letter.

An hour later, wondering at her long silence, Uncle Slim went quickly upstairs. Gay had said nothing about not feeling well, but the old man had detected an unaccustomed listlessness in her manner, and understood that things were not quite right. Fearful of waking her should she be asleep, he stood for a moment on the threshold. Then, at a sudden convulsive movement of her shoulders, he crossed the room and touched her gently. She turned, and with consternation he saw the cause.

"What's the trouble, dearie?" She sat up, wiping her eyes; trying to smile; ashamed that he should find her weeping.

"I'm just a—silly. All along I've urged Nick not to hurry, but—somehow I thought he would. That's like a woman, isn't it, Uncle Slim?" "I don't just rightly get it," said patient Simon. "Isn't Nick coming pretty quick?"

"He—he was." She swallowed a lump in her throat. "He'd made up his mind to start as soon as his business with that stupid lawyer was finished, and then—you know, Uncle Slim, that Mrs. Halliday was on the boat going down?"

Simon nodded. Daylight was breaking through, and his jaw settled into a straight, unyielding line. Gay, twisting her wet handkerchief into a ball, did not notice.

"It seems," she continued slowly, "that some friends of Mrs. Halliday's—some people who visited here last summer, have asked Nick to go on a cruise in their yacht. Mrs. Halliday went clear to Kingston to give the invitation. It—it was very kind of her, and I suppose I'm selfish even to feel disappointed. He says it's for only a month longer, and they're to go into out-of-the-way places, and see marvelous things. It's ridiculous of me to cry, but—I'd made up my mind he was coming, and—"

"There! There!" Simon comforted. "A month's slip in to no time now the warm weather's come, and they're so much pretty to look at. When does he sail? Look-a-here! Gay! I feel like you couldn't spare him I'll send a message. Nick wouldn't want to go if he knew you needed him." "For a perceptible moment her eyes brightened; then she said: "No, it's too late; and anyway I wouldn't be so selfish as to spoil his plans. They must have sailed yesterday or the day before, and there's no way to reach them. He doesn't even mention the name of the yacht—probably didn't know when he wrote. Don't worry about it, Uncle Slim. I wouldn't have cried if I'd been well."

She hadn't meant to confess even to a hint of weakness, and now she was crying. "What's the matter, dearie? Have you seen the doctor?" "No; but I will. I shan't economize on doctors now, Uncle Slim—not after what I went through before."

Simon walked to the window—looked out at the children, and called: "Sonny, you let little Marthy be. Don't you know she's a lady and you got to be polite? That's it. Now, Marthy, you give that spoon to the baby. He's little, you, and you got to learn to give yer own way. There comes your daddy. You ask him if Uncle Slim isn't right."

Gay had joined him, and was watching Halliday bend down to settle the small dispute. Simon put an arm about her.

"Look-a-here," he said, "how's Nick to get back if they're cruising in in them out-of-the-way places?" "They'll drop him somewhere—some part of Cuba, probably. Perhaps he'll write more definitely before they start. You can read the letter, Uncle Slim. It's a darling letter, and of course I understand; only—Uncle Slim, I—I don't like Mrs. Halliday."

"M—m—" grunted Simon; then: "Nick'll find her out, honey. Nothin' like boat travel to show up people's failings."

"But Nick's so—trusting. He thinks everyone's as splendid as he is himself. And she's clever, and older than he, for all she looks so girlish. I shouldn't want her to make a fool of him."

"Don't you trust him, Gay?"

She flushed hotly. "Of course I trust him! I don't trust her, that's the trouble. Oh, I'm not jealous, I'm not. I'd trust my husband on a desert island with the prettiest woman in the world; but I have a feeling that Mrs. Halliday has some reason for her interest in Nick. Why should she have taken that journey to invite him, when she could have written? Don't you see? She knew the influence of her personality. She knew it would count. It's what she wants of Nick that troubles me—not what he may want of her."

"She wants his scalp most likely," mused Simon wisely, "but if I know Nick she'll have some little trouble prying it loose. Now you go wash your face, dearie, and come down to dinner. That hired girl Julie Nipples found for us is some cook. I think maybe I'll take over the housekeeping from now on, so you won't know what you're going to set down to. Make some surprise give you more relish for your victuals. My old woman used to say she got sick to death of knowin' what was comin' on the table, even if she didn't cook it herself."

Gay pressed her cheek lovingly against the old man's arm. (To Be Continued.)

Explorer Died In Arctic

Body Of German Professor Found By Rescue Party

Arctic riggers have claimed another illustrious explorer and scientist. Word received at Berlin that the body of Professor Alfred L. Wegener, head of the German expedition to central Greenland, had been found by a rescue party dispatched the last winter, hoping that he would be found alive. Missing since November 1 when he started out with only a native companion for his base on the western edge of the Greenland ice cap—a journey of about 250 miles—Dr. Wegener's body was found some 90 miles from his central camp at Eismittel, his starting point.

The body was clothed warmly in fur and it was thought he succumbed to heart disease. His personal belongings were missing, presumably having been removed by his companion, Rasmussen, of whom no mention was made in the brief advices received.

The 50-year-old scientist led the expedition to Greenland in April, 1930, intending to spend 18 months there studying meteorological and scientific data.

Proponents of Dr. Wegener's expedition announced that his body would be carried on according to program under the leadership of his brother, Professor Kurt Wegener, who plans to sail early in June for Greenland via Copenhagen.

Soviets Make Rubber

By Secret Process

Cost Of Manufacture Said To Be Very Low

The Leningrad rubber trust factory produced more than a half metric ton (more than 1,100 pounds) of commercial rubber from oil in one day by means of an unrevealed process.

The work was done under direction of a Professor Byzov, crowning experiments begun in 1918, the announcement said. It was reported the production cost was extremely low and that the new process accordingly presents tremendous commercial possibilities.

Rubber goods are being manufactured from this batch at the "Red Triangle" factory in Moscow.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

The Russian Way

Because of recent breakages of machinery in factories and collective farms, the Supreme Court has issued instructions to officials of all district courts throughout the Soviet Union that henceforth "carelessness will be considered crime and all offenders must be tried under criminal statutes." Conviction would carry with it imprisonment or exile.

Seventy-five years ago fashions were called "fave apples," and were coveted for ornament, not for food.

John: "What do you do when the brakes on your car give way?" Bruce: "Hit something cheap."

MINNER'S
PAIN STOPPER
"I had pain in my back, neck, and joints. I tried everything, but nothing helped. I got a box of Minner's Pain Stopper, and after using it a few days, I was free of all my pain. I can now do my work as usual. I highly recommend it to all who suffer from rheumatism, neuralgia, or any other kind of pain."—A. C. Carter, 1014 Main St., St. Paul, Minn.

Dogs Aid French Smugglers

Average Animal Can Carry Ten Pounds Of Contraband

Tobacco costs 20 cents a pound in Belgium and just across the border, in France, the price is \$1.20. As a consequence there is widespread smuggling traffic across the border between the two countries.

Almost any night French smugglers may be seen in heavily wooded sections of Belgium at the border, gliding from tree to tree accompanied by their dog couriers, awaiting an opportunity to strike across the line.

On the other side pairs of French customs men are hidden behind bushes by their killer dogs awaiting for their prey.

The average smuggler's dog carries ten pounds of contraband. The profit for each successful journey is \$10. Only a few hours are required and the business is so popular that there is no risk for the smuggler, but for the dog there is death.

Usually a half-breed shepherd or Alsatian canine is used. Invariably the smugglers' dogs are overtaken by the government killers and another death—perhaps two—is chalked up in what might be termed an epic battle.

When the customs men come running up at least one of them and perhaps both, will be dead. It is generally the poorer quality of the dogs that wins these sanguinary battles, he says.

A famous dog called "Gamin," belonging to the Valenciennes brigade of the customs service, was himself killed in battle after he had finished off ninety-two smugglers during his career. The customs men get a bounty of 12 cents for the left hind foot of every tobacco smuggler killed.

To combat the illicit frontier running, the French customs men have resorted to the old Indian trick of bending over a young sapling and hanging a looped rope from it. A piece of meat suspended inside the loop serves as a bait and releases the trap when it is touched.

Poorly trained dogs that are foolish enough to step on their way to nibble at the meat, suddenly find themselves caught around the neck or midriff and jerked into the air. Sometimes the dogs are placed on a sack of sand.

These devices for tempting the smugglers with food along their way are particularly effective, because the dogs are always hungry when they are ordered to the frontier. To insure that their dogs head straight for home, the smugglers feed them well at home and not at all in Belgium.

The average smuggler starts his outings for home in the woods and then gets home by himself, whistling a gay tune as he passes the customs post.

The customs men know perfectly well what he has done, but have no proof. If his dog is killed, he will buy a new one, for big shepherds, Greenhounds and police dogs are common. Occasionally the runner is particularly speedy and will reach his destination—some lonely farm house—before being overtaken, but in the majority of cases the killer catches up with him.

Another type of smuggler uses a dog to aid him but in a different way. He carries a small, fast, keen-scented dog on his own back, he tries to slip across the frontier in the darkness without being seen. If he is spotted by the customs men and their dog, he depends on his own animal to pull him along at almost double the pace of his pursuer. Powerful dogs literally can jerk a man off his feet.

Declares Airships a Failure

"The airship is a total failure by reason of its size and vulnerability," said Lt.-Col. W. A. Bishop, Canadian war aviator, in an address to the Canadian Society of Automotive Engineers at Toronto. He declared airships were doomed to failure and that lighter-than-air craft would be used as the proverbial dodo in five years.

War Relics Found In Park

Workman unearthed a number of World War relics in Kelvingrove Park, Glasgow, Scotland, recently. Among them were two hand grenades and four live, eighteen-pound shells. It is believed they were stolen from a munitions factory during the war and hidden in the park.

April Pools day originated with the Hindus, who celebrated it on March 31, but the Romans' Feast of the Fools was held on February 17.

Ambergia, valued in perfume manufacture, looks like dirty tallow when it is found floating in the sea.

Number Of People Afraid Of Lightning

And Still Will Risk Their Lives In Many Ways

It is surprising to find the number of people who are terrified of lightning, in spite of the fact that the records go to prove that very few persons have ever been struck by lightning.

As a matter of fact there is no reason for terror, but when nature starts her fireworks it is useless to point this out to many people.

It really is surprising. There are men—even men—are not talking about women—who will shiver at a flash of lightning, even rush for cover.

Yet these same men are not afraid to try and beat a train over a head crossing, or not afraid to cut in and out of traffic on a crowded highway, even if they have the family with them in the car.

And there are men who think nothing of trying to pass a car on the face of a hill, or of driving at a rate of sixty and seventy miles an hour, who will not drive at all in a thunder storm, because they are afraid of lightning.

There are men who are afraid of lightning, who are not afraid to risk a boat, to lie, and even to be high pressure salesmen. The list, in fact, is long, if not endless.

True, lightning has proved fatal, but even if it chose all its victims from the class of birds we have mentioned, scarcely a dog would be made in the ranks, we would still have them with us, a pest on the land.

A Unique Industry

Town Of Norway, Maine, Has Large Snowshoe Plant

Snowshoes and skis may be out of season here, but in the small town of Norway, Maine, on the Norway branch of the Grand Trunk Railway, branch of the Canadian National Railways.

One of its largest industries is the manufacturing of snowshoes and skis and it boasts the largest ski and snowshoe factory in the new world. Improved machinery now being installed will greatly increase the present annual output of 10,000 pairs of snowshoes and 50,000 pairs of skis.

Each year the hides of 3,000 steers are cut up for snowshoes filling or strings, and 200,000 feet of white ash are used for the frames. Snowshoes vary in size from a child's measuring 8 inches by 32 inches to a 6-foot Norway model are made in Norway as well as skis from 3 to 9 feet in length.

Meile Dunham, of Siding Falls, Maine, lives in Norway, designed and made the snowshoes used by Rear Admiral Robert E. Peary on his successful dash to the North Pole.

Effective Fog Horn

Toronto Professors Working On An Entirely New Type

The most effective fog-horn in the world was perfected by John Northey of Toronto, and is now being used by many foreign countries. Prof. Louis V. King, of McGill University, told the physics section of the Royal Society of Canada recently.

Prof. King and Prof. C. U. Vesot are now working on an entirely new type of fog-horn, it was announced. This horn would enable a ship to determine its exact distance from the danger point. Simultaneous warnings would be sent out by sound and by radio, and picked up by a delicate mechanism on shipboard. Using the difference in time between the arrival of the sound warning and the arrival of the radio warning the ship's crew would then be able to calculate the distance over which the message had come.

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

Add Value To Home

Shrubbery Which Is Carefully Planted

Is Real Asset
Carefully planted shrubbery adds charm and value to the home. Authorities agree that best effects are secured by confining the shrubs to the border and to the base of the dwelling, leaving an open lawn. In foundation planting shrubs of different heights should be chosen and so placed as to conceal the alignment without completely covering the foundation.

Suitable shrubs are described by the Dominion horticulturist in the federal department of agriculture bulletin No. 89, which also tells how to go about the planting.

"I can't marry him, mother. He's an atheist and doesn't believe there's a hell."

"Marry him, my dear, and between us we'll convince him that he's wrong."

There Should Be No Ugly Women!

There are 2 classes of women.

(1) The beautiful, healthy and attractive creature.

(2) The ugly ones who don't know how to make themselves beautiful—rather those who don't know the vital importance of Kruschen Salts to physical perfection and attraction! Kruschen Salts are a perfect blend of the six vital minerals which Nature ordained, glands, blood, nerves and body organs should daily receive from food if they're to function correctly—and which are impossible to obtain in this age of modern cooking. Get a bottle of Kruschen—and before the bottle is half empty your complexion should be gloriously smooth and clear, your hair gleaming, your harmful acids and poisonous waste matter which cause blemishes, blackheads and pimples. Your wonderful new energy will surprise you—mind feels so keen and alert—no more washed-out feeling getting up in the mornings.

Little Helps For This Week

"Therefore if any man be in Christ, he is a new creature; old things are passed away; behold all things are become new."—2 Corinthians v. 17.

Whatever hath been written shall remain. Nor be erased, nor written off again; they remain only still belongs to thee.

Take heed and ponder well that what thou hast written shall remain.

—Henry Wadsworth Longfellow.

We cannot undo the past and begin afresh. We have to take the past as the starting point and determining element of the future.

But the past is not what cannot be obliterated may be transmuted by divine grace. In Christ Jesus we may become new creatures; and in the eternal life that we begin in union with Him all old things are passed away. We are not condemned for sin in the past, and all things in the transfiguring light of heavenly love become new.—Hugh McMillan.

Turkish City Dwindling

Constantinople Is Rapidly Losing Place As World City

Constantinople, once the proud capital of the sultans, is gradually dwindling into insignificance as a world city. In 1924 a rough census of Istanbul, as Turkey is called, showed a population of 1,065,000, of which about 650,000 were Moslems, 297,000 Greeks, 73,000 Armenians and 25,000 Jews. Three years later a census showed that the population of the city had then a population of only 673,000. Recently the municipal electoral committee, while taking a census in preparation for the elections, found that the population of Istanbul has slipped downward 119,000 since 1927. Evidence of commercial stagnation are apparent on every hand.

Cattle Shipments To Britain

Livestock Shipments In 1930 From August To End Of Season Reached 3,581 Head

Following the revival last summer, when an absence of some years of Canadian live cattle shipments to the British market, 3,581 cattle reached the port of Manchester from the Dominion between the initial shipment made in August and the end of 1930, when the first live cattle reached the British market, at Liverpool, is the Commercial Intelligence Journal.

Brighton's life-boat station, established in 1855, and one of the oldest on the English coast, is to be abandoned and a powerful motor lifeboat established at Shoreham a few miles away.

CORNS LIFT OFF

Pain Stops!

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two, and the corn is cured. Wonderful!—Woundo—Lift it but that is just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from any drugstore for 35c.

PUTNAM'S

Your Boy!

IN your boy's future money must play an important part. The possession of it may mean success; the lack of it, failure. Your experience tells you what he cannot know—the value of money saved. You can give him a precious asset—the habit of saving. His first thousand dollars may mean a lifetime of success.

Local and General Items

Dr. J. Olivier was down from Creston on Sunday last.

Frank Wheatley, junior, was down from Banff during the week.

Mrs. J. R. Gresham is down from Okotoks on a visit to Mr. and Mrs. J. W. Gresham.

J. E. Gillis, B. A., Blairmore barrister, has been elected state deputy for Alberta of the Knights of Columbus.

A real honest-to-goodness Casey Jones attended the Dokay convention at Creston last week. He domiciles at Kimberley.

Rev. Mr. J. W. Smith returned from Calgary on Tuesday, where he had been attending the conference of the United church.

Beyond the passing of a few accounts, very little business was transacted at Monday night's meeting of the town council.

Seeing so many high-school boys wearing cigarettes seems proof that at least they have been taught what their mouths are for.

Mrs. O. Lillie came down from Creston on Sunday and is staying for a while here with her son, Dr. R. K. Lillie, and Mrs. Lillie.

Mr. and Mrs. A. M. Morrison motored from Coleman to Vancouver last week in the record time of thirty hours and forty minutes.

The resignation of Mr. W. H. Chappell as chairman was tendered at an adjourned meeting of the Blairmore School Board last night.

The regular meeting of the I.O.D.E. will be held at the home of Mrs. W. Howe, on Monday, June 8th, at 7:30 p.m. All members are requested to attend, as this meeting will be the last till September.

About forty candidates travelled the hot desert sands to become full-fledged D.O.K.K. votaries at Creston on Saturday night last, when the impressive degree ceremony was conferred by a Spokane degree team.

Mr. and Mrs. J. W. Shaffer and children, left on Monday morning on a motor trip to Spokane and neighboring points. They were accompanied by Mrs. Bouthillier, mother of Mrs. Shaffer, who will continue on to Portland, where she will visit with her daughter Lillian for a few months.

There will be a joint meeting of the men's organizations of St. Alban's, Coleman, and St. Luke's church, Blairmore, at 8 p.m. on Wednesday next, June 10th, in the parish hall at Blairmore. This meeting is called for the purpose of discussing matters of interest to both parishes. Refreshments will be served following the meeting.

William Harrison, one of the oldest residents of the Pass and a pioneer of Blairmore, leaves tomorrow on a visit to a son at Vancouver. He will be accompanied by his son Richard from Michel. Mr. Harrison is drawing close to the three-score-and-five mark, but is still hale and hearty, and his friends sincerely hope that such a vacation will only add to his prospects of longevity of life.

Following is the result of Grade VIII. May examinations, in order of merit: Richard North, Norman Davis, Tom Crowder and Billie Irvine (tie), Margaret Kubie, Eva Erikson, Carol Crisaty, Doris Sartoris and Irene Leskooski (tie), Connie Claringburn, Enis Askacker, Harold Lund, Revie Walker, Violet Galiotti and Beatrice Cartwright (tie), Edwin Peters, Charlie Hays, Noel Peters, Eda Martini, June Smith and Augusta Cadet (tie), Sylvia Lund, Norman Picard, Lucy Bazille, Manie Hamilton, Clifford Chappell and Arthur Hales (tie), Jack Pratt, Vera Lord, Jack Scott, Charles Began, George Snood.

SHACKS, one and two-room, for rent. Apply to The Enterprise.

The town council will sit at a court of revision tomorrow night.
